

## About AutoSolo's

An AutoSolo consists of a number of timed, 'all forwards' tests, on hard surfaces. The courses don't require specialised manoeuvres such as spin turns, and their design and marking are intended to make the routes easy to follow.

Compared to traditional autotests, speeds through corners may be a little higher, and the tests longer, with cars starting at timed intervals, rather than waiting for the last one to finish. Competitors also act as course marshals, on a rotating basis.

AutoSolo's in the UK were pioneered by Bristol Motor Club, inspired by similar events which are well established in the USA, and they are now becoming increasingly popular here.

The Summer Solo is the third round of our Solo Challenge, open to all FDMC members, and based on our four events during 2009.

For more details of the Challenge, see the Championships page on our website, at [www.farnboroughdmc.org.uk](http://www.farnboroughdmc.org.uk).

  - E. Production (open and fixed roof ) 2 seat sports cars
  - F. Lower volume sports cars, kit cars suitable for road use, and others ineligible for classes A to E

Cars eligible for Class A shall run in that class, rather than in the corresponding class from B to E.

Class F includes all Caterhams, Westfields, Lotuses, Clans, Ginettas and similar. Diesels, with or without forced induction, will run in the class corresponding to their capacity. A petrol engine with forced induction, in class B or C, will move up one capacity class. A rotary engine will be classed at twice its nominal capacity.

Classes with fewer than 4 entries may be amalgamated.

All cars must retain the original body profile above the hub centreline, apart from accessories such as spoilers and wheel arch extensions. Cars not conforming to this requirement, or one-off specials, or kit cars of an 'off-road' nature, are not eligible for this event.

Suspension and transmission may be modified, within their original configuration. Tyres marked 'for competition use only', or manufactured without a full tread pattern, may not be used.

Additional eligibility requirements, Classes A to E:

In classes A to E, cars must retain the original panel and window materials although accessories such as spoilers and wheel arch extensions may be added. They must have full trim and seats although the type may be replaced.

The engine must be of the original manufacture and original basic type (eg: BMC 'A' series) and must be fitted in the original position, but may be a different version, may be modified, and may be a different capacity, provided the car is entered in the class corresponding to its actual capacity.

The transmission must be also of the original manufacture and original basic type, but internal parts can be changed, eg, ratios and differential type, including fitting an LSD.

Cars not meeting these requirements are eligible only for Class F.

The organisers' decision will be final, regarding the eligibility and most appropriate class for any particular car.

As per GR D.69: cars entered in AutoSolo's must be registered, taxed, insured, MOT tested if applicable, and driven to the event.

Please note, these requirements **will** be enforced. Tax discs must be displayed; proof of insurance cover, and MOT's (for cars over 3 years old) must be available; and trade plates will not be accepted.
